CORRECTIVE ACTIONS:

2 ☒ CA# 159433

Corrective Action: Install or repair required BMPs

Date: 03/31/2022

Response: CA COMPLETED

Date of Completion: 02/02/2022

Operator Comment: Road and crossing are maintained as needed. Runoff water noted in inspection photos is coming from drainage areas above the water crossing and is laden with naturally occurring sediment from areas above the crossing. The access road is constructed in rocky alluvial deposits which contain a high content of rock that helps to stabilize the crossing and prevents down-cutting by occasional traffic.

COGCC Decision: Approved pending re-inspection
