Site Investigation and Remediation Workplan (Supplemental Form)

This form shall be submitted to the Director for approval prior to the initiation of site investigation and remediation activities. However, this shall not preclude the Operator from taking immediate action to protect public health or safety, the environment, wildlife, or livestock.

This Form 27 describes site conditions as currently understood by the Operator; approval of this Form 27 by COGCC is based on the site conditions accurately described herein; any changes in site conditions identified during or subsequent to the performance of the approved workplan may necessitate additional investigation or remediation which shall be described on a supplemental Form 27. This Form 27 is intended to provide basic information regarding the proposed site investigation and remediation actions, but the workplan may be more fully described in attached documentation.

Closure request is not available for an Initial Site Investigation and Remediation Workplan.

|        |   |
|--------|---|
|        | REM Project #20750 was initiated by the operator for facility closure of the La Posta Canyon #2, API #067-06135. During the course of that remediation project, the operator will comply with Rule 913.f. regarding the discovery of a spill or release.  |
|        | COGCC EPS staff conducted a desktop review of available documentation for Pit Facility ID #105205, including historic aerial imagery and previous inspection reports. Pit Facility ID #105205 will be administratively closed in the COGIS database. The Operator will comply with Rules 911 and 913 during facility closure.   |
|        | Based on review of the information provided, it appears that no further action is necessary at this time and COGCC approves the closure request. Should conditions at the site indicate contaminant concentrations in soils exceeding COGCC standards, or, if groundwater is found to be significantly impacted, further investigation and/or remediation activities may be required at the site. Reclamation will be compliant with the 1000 Series Rules. |
