Gentlemen:

In a recent review of this well file it has come to my attention that in November, 1981 you submitted an application for permit to drill on the subject well, indicating a change in status from stratigraphic test to oil well. Apparently no fee was submitted and in any event the application was not approved.

Will you please resubmit an application with the fee (\$75) based on the fact the well has been completed and is on production. Upon receipt of the application and fee I will approve it and note what happened. If you have any questions please contact me or Jim Kenney of this office.

Very truly yours,
