COGCC Comments

Comment	User	Date
<p>At time of inspection unable to move master valve due to it being seized in position. Sales, and casing valves appear to be shut. Unable to access tanks due to weed growth on location, unable to access horizontal separator due to weed growth on location.</p> <p>Because P3 is not actively managing any of its Colorado Wells or Locations there is a direct threat to public health, safety and welfare, including the environment and wildlife resources. Therefore, the COGCC will undertake steps to, at a minimum, shut-in all of P3's wells and lock-out/tag-out P3's flowlines. COGCC may take additional actions to protect public health, safety and welfare, including the environment and wildlife resources, without providing advanced notice.</p>	medinaj	02/28/2022
