Mr. & Mrs. Earl L. Fauver
8522 Via de Viva
Scottsdale, AZ 85258

Dear Mr. and Mrs. Fauver:

As the mineral owner in the N $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 29, Township 9 North, Range 56 West, Weld County, we are asking your consent to the proposed location of another well we intend to drill on lands immediately to the south of your property. Intermountain Oil Company is the operator of both the proposed well, the Teal #4, and it will be drilled at a location nearer to your property than allowed by the Colorado Oil and Gas Conservation Commission ("OGCC") without your consent.

As shown on the enclosed plat, the proposed Teal #4 well will be approximately 385 feet from the south line of your property. This well will help prove up your minerals, since success in this well will cast favorable light on the potential of your land for production from the same formation. The OGCC will approve the exception location, which was chosen to maximize our probability of success, upon receipt of a copy of this letter, signed by both of you. We believe that this location will be in all of our best interests.

Please date, sign and return one copy of this letter as soon as possible in the enclosed return envelope. It would be sincerely appreciated if you would fax a copy of the consent letter before you mail it, since we have a rig available and your faxing the consent first will greatly expedite the issuance of the required permit. If you have any questions at all, please do not hesitate to call me.

Thanks for your prompt response.

Cordially,

William G. Crews, CPL

Agent for Intermountain Oil Company

cc: Intermountain Oil Company

The undersigned, as the mineral owner in the N $\frac{1}{2}$ NW $\frac{1}{4}$, consents to the location of the proposed Teal #4 well at a location 1,320 feet from the West line and 1,705 feet from the North line of said Section 29, which is approximately 385 feet from the south line of our property in said N $\frac{1}{2}$ NW $\frac{1}{4}$.
