Comment:

Site-specific remedial action plan with dates indicating a timeline for remediation for this release was submitted with the GRIP on January 31, 2022. FIRR 402961755 did not approve this response, so further clarification is provided here. The following site-specific schedule as submitted with the GRIP is as follows:
3/31/22 – complete excavation; collect confirmation soil samples
4/8/22 – soil data analysis on confirmation soil samples
4/15/22 – anticipated date for irrigation water to be turned back on
4/30/22 – backfill completion
5/31/22 – complete reclamation

The implementation schedule section of Form 27 Document Number 402959482 also includes this information.

The above 2 responses were not accepted to meet the request of a stand alone site specific schedule. Per phone call with Nikki Graber on 3/1/22, the schedule has been attached separately.

COGCC Decision: Approved
