<p>COGCC Inspection Report Summary</p> <p>On Monday 3-7-2022 at approximately 1115 hrs. I, Inspector Robbie Revas, Conducted an on-site inspection:</p> <p>Operator: Painted Pegasus Petroleum (3P)</p> <p>Location name: Hosmer 43-32</p> <p>API #05-001-08878</p> <p>County: Adams</p> <p>Weather: Clear.</p> <p>Location: Snow covered.</p> <p>While there, I observed a wellsite and tank battery.</p> <p>Because P3 is not actively managing any of its Colorado Wells or Locations there is a direct threat to public health, safety and welfare, including the environment and wildlife resources. Therefore, the COGCC will undertake steps to, at a minimum, shut-in all of P3's wells and lock-out/tag-out P3's flow lines. COGCC may take additional actions to protect public health, safety and welfare, including the environment and wildlife resources, without providing advanced notice.</p> <p>During this inspection, I observed the following possible compliance issues:</p> <p>606 House keeping: weeds overgrown all around location, some stained soil. Leak at the master valve. unused equipment.</p> <p>See attached photos.</p> <p>No follow up on this site inspection needs to be conducted to ensure that Compliance issues are corrected to comply with COGCC rules.</p>	revasr	03/07/2022
