**COGCC Comments**

Comment	User	Date
<p><a href="#">COGCC Inspection Report Summary</a>                      On Monday 3-7-2022 at approximately 1215 hrs. I, Inspector Robbie Revas, Conducted an on-site inspection:                      Operator: Painted Pegasus Petroleum                      Location name: GreeneMeier 9-30                      API #05-001-07100                      County: Adams                      Weather: Clear.                      Location: Snow covered.                      While there, I observed a wellsite and tank battery.                      Because P3 is not actively managing any of its Colorado Wells or Locations there is a direct threat to public health, safety and welfare, including the environment and wildlife resources. Therefore, the COGCC will undertake steps to, at a minimum, shut-in all of P3 wells and lock-out/tag-out P3's flow lines. COGCC may take additional actions to protect public health, safety and welfare, including the environment and wildlife resources, without providing advanced notice.                      During this inspection, I observed the following possible compliance issues:                      606 housekeeping: Trash and weeds all around location and in open top earth pit.                      See attached photos.                      No follow up on this site inspection needs to be conducted to ensure that Compliance issues are corrected to comply with COGCC rules.</p>	revasr	03/07/2022
