**COGCC Comments**

Comment	User	Date
<p>COGCC Inspection Report Summary  On Wednesday 3-9-2022 at approximately 1030 hrs. I, Inspector Robbie Revas,  Conducted an on-site inspection:  Operator: Painted Pegasus Petroleum  Location name: Ruth 34-29  API #05-123-08544  County: Weld  Weather: Cloudy, windy with light snow and cold.  Location: Snow covered.  While there, I observed wellsite, PA at the time of inspection. Form 06(S) Doc # 401516477,  Plug date 2-8-2018.  Because P3 is not actively managing any of its Colorado Wells or Locations there is a direct  threat to public health, safety and welfare, including the environment and wildlife resources.  Therefore, the COGCC will undertake steps to, at a minimum, shut-in all of P3's wells and  lock-out/tag-out P3's flow lines. COGCC may take additional actions to protect public  health, safety and welfare, including the environment and wildlife resources, without  providing advanced notice.  During this inspection, I observed the following possible compliance issues:  606 housekeeping: unused equipment, Gas meter, flow line still at wellsite and weeds  around location.  See attached photos.  No follow up on this site inspection needs to be conducted to ensure that  Compliance issues are addressed to comply with COGCC rules.</p>	revasr	03/09/2022
