### OPERATOR COMMENTS:

The area noted on the Form 19 was walked and soil was probed with a shovel to identify any notable impacts and assure that representative samples were collected. No hydrocarbon odors were observed. The SS1-SS4 sample locations were re-sampled on 6/21/2018 for EC and SAR. Sample location SS2 was re-sampled on 8/7/2020 for EC. All samples are within the COGCC Table 910-1 allowable concentrations.

Chevron is requesting closure of Spill ID 400759904 under Table 910-1 due to the initial release occurring during Table 910-1 rule. Samples were collected prior to the Table 915 adoption.

I hereby certify all statements made in this form are to the best of my knowledge true, correct, and complete.
