Comment:

Well location- Little to no establishment of alfalfa was observed. This is a common observation with alfalfa fields when trying to get new alfalfa to establish due to the autotoxicity behavior of alfalfa.

Tank battery- Little to no establishment was observed but this is still early for cool season grasses to start development.

Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards, including stormwater and weed management. Operator shall submit a Form 4 Final Reclamation Complete notice when the location meets Rule 1004 standards. COGCC may conduct inspections prior to receiving said notice to ensure compliance with Rule 1004.
