Comment:	<p>This well utilized two tank battery locations. One of the tank battery locations was reclaimed sometime around 2015 which is shown in the attached inspections. No visual evidence of oil and gas equipment was observed at the well location or this tank battery.</p> <p>The second tank battery location is still active and in use for other nearby wells. Refer to the attached inspection photos.</p>

VEGETATIVE COVER _____

Comment: The tank battery area is being utilized for cattle operations. It appears heavy use by cattles and the tank battery is a pinch-point for cattle accessing water. In addition, there is a cattle staging area to the immediate left of the tank battery area.

The well location is reflective of reference area vegetative conditions.
