General Comment:

On 3/8/2021 COGCC staff, Kris Neidel inspected Collection Station 12. Weather was 32 degrees, melted snow and very muddy. Due to the mud, the focus of the inspection was related to pits, Facility 102540 NO pit was observed. Pit Facility 102540 appears to have been physically closed sometime in 2012. Remediation Project 7205 was created in 2012 to document Pit closure. Documentation of closer was not received by COGCC. This project should be delineated, work documented on a Form 27.
