General Comment:

COGCC Inspection Report Summary

On Thursday 3/10/2022 at approximately 1000, I, Inspector Scott Ramsey, conducted a routine inspection at TEP RWF 33-15, at Location # 335064 in Garfield county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad.

Location is snow covered in areas at the time of inspection.

During this inspection the following possible compliance issues were observed:

1. Location shows signs of lack of stabilization/ compaction/ degrading.
2. Valves on tanks missing caps/plugs.

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report.
