**COGCC Comments**

Comment	User	Date
At time of inspection all valves were in the close position. LOTO was installed on master valve. 300 BBL tank has fluid in it.	medinaj	03/15/2022
Because P3 is not actively managing any of its Colorado Wells or Locations there is a direct threat to public health, safety and welfare, including the environment and wildlife resources. Therefore, the COGCC will undertake steps to, at a minimum, shut-in all of P3's wells and lock-out/tag-out P3's flowlines. COGCC may take additional actions to protect public health, safety and welfare, including the environment and wildlife resources, without providing advanced notice.
