mg/kg - milligrams per kilogram  
mg/L - milligrams per liter  
J - indicates an estimated value  
V - The sample concentration is too high to evaluate accurate spike recoveries.  
B - same analyte is found in associated blank  
J3 - The associated batch QC was outside the established quality control range for precision.  
J5 - The sample matrix interfered with the ability to make any accurate determination; spike value is high.  
J6 - sample matrix interfered with the ability to make any accurate determination; spike value is low  
mmhos/cm - millimhos per centimeter  
mv - millivolts  
su - standard units  
NA - not applicable  
NT - parameter was not tested  
ND - not detected above method detection limit
