General Comment:

On 03/15/2022, Reclamation Specialist O'Malley conducted an interim reclamation and stormwater inspection at TEP Rocky Mountain LLC's Weinreis A Pad Location #335448 in Garfield County, Colorado.

The following compliance issues were observed during this inspection:

- Weed Debris
- Storage of unnecessary equipment
- Stormwater: rutting is present, erosion of unstabilized slopes

Refer to the "Good Housekeeping," "Reclamation," and "Stormwater" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Well Release on Active Location ☐Multi-Well Location ☐**Storm Water:**

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment

Comment:

It was observed in this inspection that the Location shows signs of lack of stabilization BMPs in some areas, as is evidenced by the presence of ruts. Tracking control BMPs to minimize/mitigate tracking and offsite sediment transport are missing or insufficient.

It was also observed that control measures to minimize erosion degradation are missing or insufficient. The cut slopes of the Location were bare and rill erosion was evident.

Corrective Action:

Install or repair required BMPs per Rule 1002.f. Continue to monitor and manage stormwater on the Location. Ongoing stormwater management is required until site receives a passing final inspection.

Date: 03/23/2022

Pits: ☐ NO SURFACE INDICATION OF PIT**Attached Documents**
