Comment:

The equipment and materials being temporarily staged at this location are related to the installation of a water gathering line that is integral to oil and gas operations in this area. The surface owners for these locations where equipment and materials are being temporarily staged have approved for the temporary use of these areas for this purpose. The equipment and materials referenced in this inspection are not miscellaneous, un-used items; rather, these items are essential components of the water gathering line infrastructure for this area. TEP anticipates that the installation of the waterline will be completed by April 30, 2022, after which all related

equipment and materials will be removed.
