Dear Mr. Macke:

Please let this letter serve as a request for administrative approval of an exception location in accordance with Rule 318A.c. for the captioned oil and gas well.

The Bailey 8-8-1 well will be directionally drilled from a surface location that is outside of the legal drilling window as described in Rule 318A, but will be located 40’ from the existing Bailey 1A well. Attached is a waiver from the surface owner for the exception location.

Thank you for your assistance in this matter. If you have any questions or comments, please call me at (720) 876-5013.

Very truly yours,

EnCana Oil & Gas (USA) Inc.
