Operator Comments:

Verdad filed surface hole sundries for the Boydston 3535 pad. The surface holes have been moved in order to shift the location and stay inside the pipeline easement that lies to the North, West, and South of the location. These pipelines were built after the Boydston 3535 location 2A was approved. The disturbance acreage is not changing.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
