**General Comment:**

[COGCC Inspection Report Summary](#)  
On Wednesday 4/13/22 at approximately 13:30 hours, I, Inspector Corey De Paolo, Conducted a follow up inspection at TEP ROCKY MOUNTAIN LLC UNOCAL-67S96W /2NWNE. Location #323884 in Garfield County Colorado.  
Refer to document #699804135 inspection conducted on 2/11/22. Previous corrective actions have not been completed. While there, I observed normal production operations.  
During this inspection the following compliance issues were observed:

1) Location lacks stabilization. Insufficient tracking BMP at entrance to location with a previous corrective action date of 9/30/21.

- Location is located in a high priority habitat area. Additionally the location is located on the edge of a 411a surface water intermediate buffer zone. All drainages contribute to the Colorado River.

A follow up on this site inspection needs to be conducted to ensure the Compliance issues have been corrected to comply with COGCC rules.  
This is a summary of inspection report.

Comment:	Separator units include an attached storage tank. The storage tank is approximately 2'x3'x14' with an approximate capacity of 15 bbl. The sight glass located on the side of the unit indicates the storage tank is full of an unknown fluid. No form of labeling or markers are present to identify a potential hazard or the contents of the storage tank.
