Re: Consent to Exception Locations  
Sindt #13 SE/4SW/4 Sec. 31-10N-52W  
Sindt #14 SE/4SW/4 Sec. 31-10N-52W  
Logan County, Colorado

Dear Mr. Winegrad:

I understand that Meritage Energy Partners, LLC. owns oil and gas leasehold operating rights in the leases covering Section 31, Township 10 North, Range 52 West, Logan County, Colorado, adjacent to lands where I own interests in the oil and gas mineral estate.

Meritage intends to drill two oil and gas wells, one near the S/2 of Section 31 and one near the boundary between the E/2 and the W/2 of Section 31. Under current state rules, without permission obtained from the Colorado Oil and Gas Conservation Commission, Meritage cannot drill a well to a formation deeper than 2500 feet unless the well is more than 600 feet from a lease line and more than 1200 feet from any other well capable of producing oil or gas from the target formation. One way to obtain permission for an exception location is to obtain a waiver or consent from the adjacent mineral owner. The purpose of this letter is to confirm my consent to a well location less than the minimum setbacks normally required.

As owner of the mineral estate in N/2SE/4 and SE/4SE/4 of Section 31, Township 10 North, Range 52 West, Logan County, Colorado, I hereby consent to the location and drilling of wells by Meritage at a surface location 481' FSL and 1469' FWL and at a surface location 1160' FSL and 2180' FWL, provided any deviation of the well bore does not exceed what is normal or customary in the area. I also waive any notice requirements for such well and any other local, state or federal well location requirements, including setback requirements under Rule 603 of the Colorado Oil and Gas Conservation Commission that would prevent Meritage from drilling a well at this location.

Sincerely,

*Arthur Sindt by Connie Rodraza*

Re: Consent to Exception Locations  
Dickinson #6 SE/4SW/4 Sec. 6-9N-52W  
Sindt #12 NWSE Sec. 6-9N-52W  
Logan County, Colorado

Dear Mr. Winegrad:

I understand that Meritage Energy Partners, LLC. owns oil and gas leasehold operating rights in the leases covering Section 6, Township 9 North, Range 52 West, Logan County, Colorado, adjacent to lands where I own interests in the oil and gas mineral estate.

Meritage intends to drill two oil and gas wells near the boundary between the W/2 and E/2 of Section 6 and near the boundary between the NW/4SE/4 and the SW/4SE/4 of Section 6. Under current state rules, without permission obtained from the Colorado Oil and Gas Conservation Commission, Meritage cannot drill a well to a formation deeper than 2500 feet unless the well is more than 600 feet from a lease line and more than 1200 feet from any other well capable of producing oil or gas from the target formation. One way to obtain permission for an exception location is to obtain a waiver or consent from the adjacent mineral owner. The purpose of this letter is to confirm my consent to a well location less than the minimum setbacks normally required.

As owner of the mineral estate in S/2SE/4 and NE/4SE/4 of Section 6, Township 9 North, Range 52 West, Logan County, Colorado, I hereby consent to the location and drilling of wells by Meritage at a surface location 690' FSL and 2552' FWL and at a surface location 1600' FSL and 2000' FEL, provided any deviation of the well bore does not exceed what is normal or customary in the area. I also waive any notice requirements for such well and any other local, state or federal well location requirements, including setback requirements under Rule 603 of the Colorado Oil and Gas Conservation Commission that would prevent Meritage from drilling a well at this location.

Sincerely,
