Dear Blaine:

During a field visit to the Sindt #4 in NENE7-9N-52W in Logan County I found an accumulation of oil, possibly an old battery site or small pit, just about 100 feet east of the well. The decomposed body of a calf was in the oil, and someone, probably the landowner, has strung a length of electric fence around the already existing wire fence. This oil needs to be cleaned up and the area restored, since it obviously is no longer used.

Les Jackson will be securing some equipment to bury some old oily dirt over at Lewis & Clark's Dubois lease just west of this site in the near future and it would be an opportune time to take care of this matter expeditiously.

Please keep me informed as to your plans and timetable for this work. If you have questions don't hesitate to contact me.

Sincerely,

Robert J. Van Sickle
Petroleum Engineer
