Comment: **The access road, battery site, and well site have not been reclaimed. The soils are compacted and have not been recontoured. Some of the abandoned pipe risers were removed but there are still 2 that remain. The electric fence was repaired. Previous corrective action was not completed. Corrective action needs to be performed immediately.**

Corrective Action: **Comply with 1004 Rules** Date **05/10/2011**

Overall Final Reclamation	Fail	Well Release on Active Location		Multi-Well Location

**COGCC Comments**

Comment	User	Date
Operator must consult the surface owner regarding fencing of the well site and in preparation of reclamation. All disturbed areas must be recontoured, properly decompacted by cross ripping to a depth of 18 inches, have an adequate seedbed prepared, and then seeded with a seed mixture that reflects the surrounding vegetation as agreed upon with the surface owner and as prescribed by the local soil conservation district. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of predisturbance or reference area levels. Continue to monitor and manage this site until Final Reclamation has Passed.	CostaR	04/27/2022
