## REQUEST FOR CLOSURE

**Spill/Release Reports should be closed when impacts have been remediated or when further investigation and corrective actions will take place under an approved Form 27.**

Basis for Closure: ☐ Corrective Actions Completed (documentation attached, check all that apply)

☐ Horizontal and Vertical extents of impacts have been delineated.

☐ Documentation of compliance with Table 915-1 is attached.

☐ All E&P Waste has been properly treated or disposed.

☐ Work proceeding under an approved Form 27 (Rule 912.c).

Form 27 Remediation Project No: \_\_\_\_\_

☐ SUSPECTED Spill/Release did not occur or was below Rule 912.a.(5) reporting thresholds.

### OPERATOR COMMENTS:

The release was identified due to a failed pressure test of the pipeline, but a point of release has not been identified for the spill. Caerus will conduct field screening activities on the entire pipeline to determine a possible point of release. Caerus will provide field investigation results on supplemental documentation if a point of release associated with this project is determined.

I hereby certify all statements made in this form are to the best of my knowledge true, correct, and complete.
