General Comment:

On 05/06/2022, Reclamation Specialist O'Malley conducted a reclamation and stormwater inspection at Chevron USA Inc's Wilson Creek Unit-62N94W /2NESE Location #314496 in Rio Blanco County, Colorado.

The following compliance issues were observed during this inspection:

- Wildlife protection BMPs missing or insufficient
- Stormwater: erosion of slopes

Refer to the "Location," "Reclamation," and "Stormwater" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

Storm Water:

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
Waddles	Fail					

Comment:

It was observed in this inspection that stormwater sediment and erosion control BMPs on the Location are missing or insufficient to minimize erosion, transport of sediment and offsite degradation; erosion is evident on the western perimeter of the Location. Rill erosion is occurring and sediment movement offsite appears to be causing degradation to adjacent areas.

Corrective Action:

Install or repair required BMPs per Rule 1002.f. Continue to monitor and manage stormwater on the Location. Ongoing stormwater management is required until the site receives a passing final inspection.

Date: 06/10/2022

Pits: ☒ NO SURFACE INDICATION OF PIT**Attached Documents**
