**General Comment:**

On 05/06/2022, Reclamation Specialist O'Malley conducted a reclamation and stormwater inspection at Chevron USA Inc's Wilson Creek Unit-63N94W /34NESW Location #314505 in Rio Blanco County, Colorado.

The following compliance issues were observed during this inspection:

- Wildlife protection BMPs missing or insufficient
- Stormwater: erosion of slopes

Refer to the "Location," "Reclamation," and "Stormwater" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
Waddles	Fail					

Comment:

It was observed in this inspection that stormwater sediment and erosion control BMPs on the Location are missing or insufficient to minimize erosion, transport of sediment and offsite degradation; erosion is evident on the eastern perimeter of the Location. Rill erosion is occurring and sediment movement offsite appears to be causing degradation to adjacent areas.

Corrective Action:

Install or repair required BMPs per Rule 1002.f. Continue to monitor and manage stormwater on the Location. Ongoing stormwater management is required until the site receives a passing final inspection.
