General Comment:**COGCC Inspection Report Summary**

On Monday 5/9/2022 at approximately 1000, I, Inspector Scott Ramsey, conducted a follow up inspection at TEP Gypsum Ranch B, at Location # 336037 in Garfield county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management, the internal buffer of the 411 (PWS) protection and geologic hazard area. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad.

C/A's (Random debris, valves of tanks and unmarked risers) have been completed from previous inspection document # 700703899. C/A (Stored equipment) from previous inspection has not been completed. FIRR # 402967644 has been submitted stating C/A has been addressed. C/A date remains the same. (4/1/2022) Staff reviewed COGCC data base and no approved form 4 is found in well file.

During this inspection the following possible compliance issues were observed:

1. Stored equipment (ECD disconnected) C/A date 4/1/2022.

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
