**General Comment:**

On 5/13/2022 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Stormwater controls are installed in response to 2021 reclamation inspection. It is not apparent whether these controls are adequate to stabilize erosion. These need to be monitored and managed to ensure stabilization. Corrective action is not cleared until site stabilization is demonstrated.

See below, and attached photos for additional detail.
