Comment **CO List B Noxious weeds were observed throughout the Location including houndstongue, musk and Canada thistle.**

Interim areas of the Location are dominated by perennial grasses including smooth brome and crested wheatgrass (introduced perennial grasses) and western wheatgrass and squirreltail (native perennial grasses). CO List C Noxious weeds including cheatgrass and bulbous bluegrass were very common in interim areas. Presently, it does not appear that vegetation has yet achieved 80% uniform vegetation cover, as there are areas of poor perennial grass establishment which are colonized by annual weeds. A follow-up inspection will be conducted to determine compliance with 1003 requirements.

Corrective Action **Comply with Rule 1003.f and conduct weed management on the Location to prevent further establishment and spread of CO State List B Noxious Weeds; ongoing weed management required until site passes final reclamation.**
