**2** CA# 161981

Corrective Action: -Stormwater and erosion controls need to be installed to stabilize erosion on the well pad and access road. Stormwater and erosion controls need to be selected, sized, installed, and maintained according to good engineering practices that will ensure long-term stabilization such as those described by CDOT in their erosion control manuals. Response to 2020 corrective action to address stormwater erosion on the access road remains inadequate. Corrective action date: 10/10/2021.

Date: \_\_\_\_\_

Response: CA COMPLETED

Date of Completion: 05/27/2022

Operator  
Comment: Storm water control measures installed, see attached photos
