General Comment:

On 05/25/2022, Reclamation Specialist O'Malley conducted a reclamation and stormwater inspection at Chevron USA Inc's Wilson Creek Unit-63N94W /34NENW Location #397126 in Rio Blanco County, Colorado.

The following compliance issues were observed during this inspection:
- Final Reclamation required

Refer to the "Reclamation" and "Stormwater" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment:

The well on Location (API # 103-06037) was plugged and abandoned 9/16/1994. Per COGCC Rules reclamation work shall be completed within twelve (12) months on non-crop land after plugging a well or final closure of associated production facilities.

It was observed in this inspection that Final Reclamation has not been performed. The Location appears compacted from vehicle traffic, and the only vegetation present is the annual weeds comon dandelion and stork's-bill. The date of discovery is being given as a corrective action date.

Corrective Action:

Submit a Federal Abandonment Notice (FAN) in a FIRR indicating surface reclamation has been passed per Bureau of Land Management standards, or complete final reclamation activities pursuant to COGCC 1004 Rules including, but not limited to, gravel removal, compaction alleviation (cross ripping to a minimum depth of 18 inches), recontouring/regrading, replacement of topsoil, and revegetation activities on the Location and access road. Use a seed mixture provided by the surface owner, or a mixture prescribed by the local soil conservation district.

Date **05/25/2022**
