General Comment:

COGCC Inspection Report Summary

On Wednesday 5/25/2022 at approximately 1000, I, Inspector Scott Ramsey, conducted a routine inspection at Caerus B30NE, at Location # 335454 in Garfield county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management Area. Operator (Caerus) has provided documentation of their Best Management Practices for Sediment Tracking Controls.

During this inspection the following compliance issues were observed:

1. Some random staining under tank valves.
2. Open ended piping for thawing out dump lines on tanks with exhaust from trucks.

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
