General Comment:

COGCC Inspection Report Summary

On Friday 6/3/2022 at approximately 1000, I, Inspector Scott Ramsey, conducted a follow up inspection at TEP Valley Farms J, at Location # 416703 in Garfield county Colorado.

Any Corrective Actions from previous Inspections that have not been addressed are still applicable.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad.

C/A's (stored equipment, staining) from previous inspection document # 700703724 have been completed. Previous inspection C/A (valves missing caps/plugs) has not been completed.

During this inspection the following possible compliance issues were observed:

1. Valves on tanks are missing caps/plugs from previous inspection C/A date remains the same 2/25/2022
2. Some cellars are not covered properly.
3. Random debris.
4. One tank is lacking labeling.

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report.
