Weeds present **Fail** Subsidence _____

1004.d. FINAL VEGETATION TRANSECT

TRANSECT RESULTS OF DISTURBED AREA% _____

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment: There was an area along the former access road that has not re-established perennial vegetation and consists of weeds. A portion of former road to the northeast was not inspected. The remainder of the road to the location has re-established perennial vegetation. The location has been recontoured and reclaimed and vegetation has established throughout most of the location. Additional reseeding and weed control is needed along the access road. The entire access needs to be evaluated for possible reclamation maintenance.

Corrective Action:	Comply with 1004 Rules.	Date	07/15/2022
Overall Final Reclamation	Fail	Well Release on Active Location	<input type="checkbox"/>
		Multi-Well Location	<input type="checkbox"/>
