CORRECTIVE ACTIONS:

1 CA# 162488

Corrective Action: Provide waste transportation and final disposition information in accordance with 905.b.(3) for all E&P waste transported off site. Operator shall submit this information via Field Inspection Resolution Response form.

Date: 06/13/2022

Response: CA COMPLETED

Date of Completion: 06/09/2022

Operator
Comment:

The Rother well produces a small amount of water during production of oil and gas. The amount of water is less than 200 barrels per year. The water is stored on site in a tank. The water is used by a hot oil company to heat oil to clear flowlines. This water is nominally used to clear the company's flow lines. Occasional the hot oil company uses this water to clear flow lines on other wells. The water is used as needed to clear flow lines. The hot oil company uses this water to clear flow lines which benefits the flow of oil and gas. The hot oil company uses its own tank truck to haul the water.

COGCC Decision: **Not Approved**

COGCC
Representative:

Operator failed to provide required 905.b.(3) documentation. This Corrective Action has not been met.

OPERATOR COMMENT AND SUBMITTAL

Comment:

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
