481686	SPILL OR RELEASE	AC	03/18/2022		-	Hiner 36C-20W Separator	EI

General Comment:

Environmental**Spill/Remediation:**

Comment: COGCC Environmental inspection of Spill Id 481686 reported by Operator 3/1/2022. Operator currently potholing with excavator in attempt to determine lateral extent of impacts near separators. No waste stockpiles observed at time of visit. Operator had submitted Form 19 for closure via Remediation 13616 which was denied.

Operator has subsequently submitted a Form 27 for investigation of most recent release. From 19 with root cause and updates of Remediation 13616 have not been received.

Corrective Action:

Submit a Form 27 Supplemental with groundwater data to bring project current since June 30, 2021 submittal.

Date: 07/08/2022

Submit a Form 19 Supplemental with root cause for fire tube failure and corrective actions to prevent additional failures.
