TRANSECT RESULTS OF DISTURBED AREA% _____

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

1003 f. Weeds Noxious weeds? _____

Comment

Operator has performed additional interim reclamation activities and desirable vegetation establishment was observed. Common rye was observed flowering along the southwestern interim reclamation area. Common rye growth was observed along southwest, south, east, northwest and western interim reclamation areas.

Corrective Action

Operator did submit a Reclamation Plan and stated that mowing operations would occur to control Common rye. There was no specific dates on when mowing operations would occur likely due to environmental factors; therefore, COGCC is requesting the Operator provide a planned schedule for controlling Common rye now that it was observed flowering.

Date 06/08/2022Overall Interim Reclamation Fail**Final Reclamation/ Abandoned Location:**

Date Final Reclamation Started: _____

Date Final Reclamation Completed: _____

Final Land Use: RANGELAND

Reminder: _____

Comment: _____

Well plugged _____

Pit mouse/rat holes, cellars backfilled _____

Debris removed _____

No disturbance /Location never built _____
