COGCC Decision:

COGCC
Representative:

2 CA# 161821

Corrective Action: Abandon monitoirng wells pursuant to 2 CCR 402-2

Date: 07/12/2022

Response: CA COMPLETED

Date of Completion: 06/18/2022

Operator
Comment:

Monitor wells were abandoned earlier by Talon LLC/Marcom. Several of the well housings were left in place at the time of abandonment. Prospect Energy removed the remaining well housings on 6/18/2022. Please see attachments for DNR abandonment records and photos of areas where well housings were removed and now restored.

COGCC Decision:

OPERATOR COMMENT AND SUBMITTAL

Comment: All monitoring wells were abandoned per the Division of Natural Resources database. This was confirmed by a telephone call to Marcom LLC. A table showing the abandonment information is attached. Field staff informed me that not all well flush mount concrete/well boxes were removed at the time of abandonment. Prospect removed remaining well boxes (MW-2, 2, 3, 4, 6) on June 18, 2022. Photos of the well areas(now reclaimed to road base) are attached.

Documentation related to the spill discovered on 5/9/2022 is provided in the Spill Report, Form 19, Initial document is 403049822.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
