Operator Comment: In response to the Issue of Concern noted, Hilcorp Operations conducted a site visit at subject location on 4/7/2022. Based on the site visit, the ponded fluids are determined to be stormwater. The containment around the tanks have a plastic liner, these tend to hold water from rain and snow melt. Tanks & flanges checked and are found to have nothing leaking. Information sent to Jim Hughes, COGCC on 4/7/2022.
