Comment: **The well does not comply with Rule 1004. A weedy annual vegetation kochia was observed on site and is supressing the dominant grass species (salt grass) at the well pad disturbance.**

The tank battery location has a variance in-process under document #402560645. The tank battery location will remain in-process until the variance form has been approved and the site can be re-inspected.

Corrective Action:	<p style="color: red;">Comply with Rule 1004. Reseed disturbance areas using a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Ensure erosion controls are implemented to stabilize the seeded soil. Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards, including stormwater and weed management.</p> <p style="color: red;">The corrective date is not intended to be the date for which the Operator shall complete the corrective actions but rather the corrective date is the date the location was observed out of compliance.</p>	Date 05/25/2022
