General Comment:

[COGCC Inspection Report Summary](#)
On Thursday 7/7/2022 at approximately 1100, I, Inspector Scott Ramsey, conducted a routine inspection at TEP CSF T Pad, at Location # 335052 in Garfield county Colorado.
Any Corrective Actions from previous Inspections that have not been addressed are still applicable.
While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat, Wildlife Management. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad.
During this inspection the following possible compliance issues were observed:
1. Cut slope shows signs of erosion/ lack of stabilization.
2. Fill slope has riling occurring under blankets.
3. Open cellars.

Refer to photograph of observed compliance issue.
A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.
This is a summary of inspection report.
