General Comment:

On 7/7/2022, Reclamation Specialist Trujillo inspected the Carney C T #36X-34 location in Rio Blanco County, Colorado. Records show well was PAd 2/23/2011 by Chevron USA Inc.

Chevron is currently the Operator on record for the well and Location, however, a Form 9 is "in process" transferring ownership of the Location from Chevron USA Inc, to Scout Energy Management LLC; transfer not yet approved, inspection is being submitted to both "Chevron" and "Scout".

The following compliance issues were observed during this inspection:
-Final Reclamation

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment:

Well was abandoned 2011; it was observed in this inspection that reclamation of the Location and Access road does not appear to have been performed in accordance with, or is progressing towards, COGCC 1004 standards and requirements; gravel/road base remains evident along access road; compaction issues evident- Location/road does not appear to have been decompacted; Location/access road either bare, or predominantly vegetated by Undesirable and Noxious Plant Species, including Halogeton, cheatgrass, and annual wheatgrass.

Corrective Action:

Conduct reclamation in accordance with 1004 Rules including, but not limited to, removal of gravel material, compaction alleviation, weed management and revegetation activities.
