RE: Notice of Alleged Violation/Corrective Action  
State 1-36 No. 1  
API No. 05-073-6082  
Section 36, T. 11 S., R. 52 W., 6th PM  
Lincoln County, Colorado

Dear Ms. Branting:

Enclosed please find Notice of Alleged Violation, dated February 18, 1997, for the above referenced well, located in Lincoln County, Colorado. I have indicated the corrective action that was undertaken on March 26, 1997, in which a successful mechanical integrity test (MIT) was performed on the well in the presence of Mr. Robert Van Sickle of the Colorado Oil and Gas Conservation Commission. Also enclosed is a Sundry Notice for the well detailing the same information. I believe that our field personnel told me that Mr. Van Sickle took a copy of the test procedure and results with him upon completion of the MIT.

I have previously forwarded a copy of Form 10, Change of Operator, for the well to Denver American Petroleum for their signature and further action. I trust they have forwarded the form to the Commission.

Please call me at (817) 877-7952, FAX (817) 877-7942, if you have any questions or need additional information.

Yours truly,  
UNION PACIFIC RESOURCES COMPANY
