**Comment:** There are areas along the access road that are not stabilized and stormwater is pooling on the road causing vehicles to drive around and widen the road. The access road needs to be repaired and stabilized with BMP's such as gravel.

There are no perimeter BMP's at the excavated impacted soil pile stored onsite. There are signs this material has eroded offsite from recent precipitation.

Corrective action needs to be performed immediately.

Corrective Action: <b>Install or repair required BMPs per Rule 1002.f.(2)C</b>	Date: _____

**Pits:**  NO SURFACE INDICATION OF PIT
