17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Date of work August 29, 1980

It has been determined that re-entry into the abandoned well bore at this location, 660' FWL & 1980' FSL (C-NWSW) Section 3-T3S-R61W, will not be feasible, since the bore hole was found to contain Drill Stem Test Tools when abandoned. Therefore, this is notification of cancellation of the re-entry permit granted on August 21, 1980.

A new application for Permit to Drill will be forthcoming.

9-9-80 - Per call, hole was not re-entered, requested report on "fish in hole". Jim
