RE: Poncho Unit 6: NW NE Sec. 34-T3S-R59W  
Poncho Unit 7: NE NW Sec. 3-T4S-R59W

Dear Sir:

This is to acknowledge your letter of July 13, 1990 requesting an extension of our July 25, 1990 deadline to pressure test or plug and abandon the Poncho Unit injection wells. The Commission will grant you one (1) extension of sixty (60) days. Therefore, the injection wells listed above are required to be pressure tested or plugged and abandoned by September 23, 1990. If you decide to test any well, notification must be given to the Commission prior to conducting the test so that we may have the opportunity to witness it.

If you have any questions feel free to contact me.

Very truly yours,

Larry Robbins  
Petroleum Engineer
