As defined in COGCC 100-Series Rules

Describe what is known about the spill/release event (what happened -- including how it was stopped, contained, and recovered):

The SPCC containment around the production tanks was being upgraded from dirt containment berm to lined steel containment rings. When the condensate tank was removed, a historical impact was discovered underneath the tank. The cause of this release is unknown. Groundwater was encountered on 5/19/14 during the excavation activities.
