**General Comment:**

On 07/26/2022, Reclamation Specialist O'Malley conducted a reclamation and stormwater inspection at SWN Production Company LLC's Bull-66N92W /8NWNW Location #313257 in Moffat County, Colorado.

The following compliance issues were observed during this inspection:

- Noxious Weeds
- Cement waste discharge

Refer to the "Reclamation," "Stormwater" and "COGCC Comments" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance
Comment:	It was observed in this inspection that cement waste material appears to have been spilled onto the soils of the Location in several areas throughout the Location in violation of Rule 1002.f.(2)B.	
Corrective Action:	Comply with Rule 1002.f.(2)B. Clean or Remove impacted soils to Table 915-1 Cleanup Concentrations; comply with Rules 906.a through 906.d.	
		Date: 08/26/2022
<b>Pits:</b> <input checked="" type="checkbox"/> NO SURFACE INDICATION OF PIT		

<b>COGCC Comments</b>		
Comment	User	Date
<b>Final Reclamation Comments</b>  Operator submitted Notice of Intent to Abandon #402951976. Per 1004 Rules, reclamation work shall be completed within twelve (12) months on non-crop land after plugging a well or final closure of associated production facilities. Final Reclamation includes but is not limited to gravel removal, compaction alleviation (cross ripping to a minimum depth of 18 inches), recontouring/regrading, replacement of topsoil, and revegetation activities on the Location and access road. Use a seed mixture provided by the surface owner, or a mixture prescribed by the local soil conservation district.  It was observed in this inspection that the Location was previously seeded with the non-native species crested wheatgrass, which is not found in reference areas. Per 1004 Rules vegetative cover should reflect reference area forbs, shrubs and grasses and the Operator must use a seed mixture provided by the surface owner, or a mixture prescribed by the local soil conservation district.	omalleya	07/29/2022
