SAFETY SETBACK INFORMATION

Required for change of Surface Location.

Distance from Well to nearest:

Building: Feet
Building Unit: Feet
Public Road: Feet
Above Ground Utility: Feet
Railroad: Feet
Property Line: Feet

INSTRUCTIONS:

- Specify all distances per Rule 308.b.(1).
- Enter 5280 for distance greater than 1 mile.
- Building - nearest building of any type. If nearest Building is a Building Unit, enter same distance for both.
- Building Unit – as defined in 100 Series Rules.

SUBSURFACE MINERAL SETBACKS

Required for change of Top and/or Base of Productive Zone. Enter 5280 for distance greater than 1 mile.

Is this Well within a unit?

If YES:

Enter the minimum distance from the Completed Zone of this Well to the Unit Boundary: Feet

Enter the minimum distance from the Completed Zone of this Well to the Completed Zone of an offset Well within the same unit permitted or completed in the same formation: Feet

If NO:

Enter the minimum distance from the Completed Zone of this Well to the Lease Line of the described lease: Feet

Enter the minimum distance from the Completed Zone of this Well to the Completed Zone of an offset Well producing from the same lease and permitted or completed in the same formation: Feet

Exception Location

☐ If this Well requires the approval of a Rule 401.c Exception Location, enter the Rule or spacing order number and attach the Exception Location Request and Waivers.

COMMENTS:

Renegade requests approval of an alternative MIT for the Whitehead #12-7 as allowed for by Rule 417.b(3) after Director consideration of any equivalent test or combination of tests.
Renegade believes the Whitehead #12-7 demonstrates mechanical integrity due to a 12/23/2021 bradenhead test (Doc #402911313) performed showing no bradenhead pressure and tubing/casing pressure of 0/7 psi. The Whitehead #12-7's tubing was recently extracted from the well and no evidence of mud was found on the outside of the tubing.
Upon completion of the Whitehead #12-7, 1500 gallons of Angel was pumped out of a sliding sleeve tool at 1556'. Surface casing of the well is landed at 243'.
The Whitehead #12-7 has been impacted by the Third Creek Gas Gathering shut down in 2018. Even though this lease only produced a small amount of casinghead gas, any efforts to increase production will likely lead to additional gas production which will make a gas capture plan more challenging.

GAS CAPTURE

VENTING AND FLARING:

Operation type: _____ Operational phase requiring venting/flaring: _____

Reason for venting/flaring: _____

Describe Other reason for venting/flaring:

Describe why venting or flaring is necessary. If reporting per Rule 903.b.(2), 903.c.(3).C, or 903.d.(2), include the explanation, rationale, and cause of the event:

Describe how the operation will protect and minimize adverse impacts to public health, safety, welfare, the environment, and wildlife resources. If reporting per Rule 903.d.(2), include BMPs used to minimize venting on the BMP Tab:

Total volume of gas vented or flared: _____ mcf ☐ estimated ☐ measured

Total duration of emission event: _____ hours ☐ consecutive ☐ cumulative

Submit a single representative gas analysis via Form 43 to create a Sample Site Facility ID# for this Location. Reference the Form 43 document number on the Related Forms tab.

Operator Comments:

This Form 4 is being filed for the Whitehead #12-7 in response to a need for an alternative MIT approval to satisfy a COGCC rule to conduct MIT's on SI or TA wells. A recent attempt to return this well to production was immediately stymied when a new downhole issue occurred only after two days of operating the well which will require a workover rig again. Scheduling of this rig has been delayed for various reasons but should happen shortly.
Given the well's construction, cementing, current bradenhead test and its very low bottom hole pressure it is highly unlikely that a problematic safety integrity issue is present at the Whitehead #12-7.
For these reasons Renegade feels this Form 4 alternative MIT request is ripe for approval.
This well is subject to a Warning Letter (Doc #402972589) issued 3/3/2022.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
